

The Asia-Oceania Bioscience and Biotechnology Consortium published The International Journal on Biosciences and Biotechnology (IJBB) twice per year that is on April and September. We welcome all research articles, review, and short communication on the aspect of biosciences and biotechnology. We invite submission of manuscripts from the region of Asia and Oceania and other region of the world. We also conduct an International Conference on Bioscience and Biotechnology every year on September in Udayana University, Bali, Indonesia as the secretariat of the consortium and the journal and possibly to be conducted somewhere depend on the decision of the committee.

We appreciate and thank you very much for your kind participation for the conference and submission of the manuscripts.
