JOURNAL OF CIVIL ENGINEERING, ARCHITECTURE AND BUILT ENVIRONMENT

Journal of Civil Engineering, Architecture and Built Environment is a peer reviewed journal published two times a year, February dan September, in English-language being distributed worldwide. It aims to promote the collaboration of civil engineering, architecture and built environment. The focus is provides an international forum for the publication and dissemination of theoretical and practice oriented papers, dealing with problems of civil engineering, architecture and built environment. The journal covers both discussion of civil engineering, and architecture and built environment, which includes structure and construction, project management, transportation, hydrology, architecture planning and design, heritage and conservation, landscape, built environment and other scopes that are relevant.

Journal of Civil Engineering, Architecture and Built Environment
Vol. 1, No. 1, February 2017

Table of Contents

The Simple House with Brick Walls and Structure System of Bamboo Reinforced Concrete, Safe and Comfortable <i>Sutarja, Wirawibawa, Agung Yana</i>	01-05
